MEMORANDUM FOR W. F. BRINKMAN
DIRECTOR, OFFICE OF SCIENCE

FROM: GEORGE J. MALOSH
DEPUTY DIRECTOR FOR FIELD OPERATIONS
OFFICE OF SCIENCE

SUBJECT: Request for approval of extension of implementation date for DOE Order 425.1D and approval of related DOE procedures

DOE Order 425.1D, Verification of Readiness to Startup or Restart Nuclear Facilities was issued April 16, 2010. The Order required implementation by DOE Line Management to be completed in 180 days from the issuance date. An extension was approved by your office through April 30, 2011. Comments by SC reviewers delayed issuance of the Office of Science Management System (SCMS) procedures. The attached SCMS procedures satisfy requirements for site office procedures. However, contractor procedures will need to be revised based upon these new SCMS procedures. In addition, the modifications to the order require DOE and the contractor to implement the order simultaneously. Most sites have been working with their contractors to develop implementation schedules. As a result I am requesting that the SC implementation of the order be extended to July 30, 2011 to accommodate the simultaneous implementation of DOE and contractor procedures. Under DOE O 425.1D, the extension and approval of the procedures require the Science Central Technical Authority (S-4) concurrence in addition to SC-1 approval.

Attached are the four revised procedures and related exhibit. These procedures have been tailored specifically for the SC mission.

Please contact Carol Sohn of my staff at (509) 420-3281 if you have any questions regarding this information.

RECOMMENDATION: Approve the attached procedures and the extension of the implementation date for DOE Order 425.1D by July 31, 2011

APPROVE: WFB DISAPPROVE: _____ DATE: JUN 7 2011
W. F. Brinkman, Director, Office of Science

CONCUR: SEK NON-CONCUR: _____ DATE: 6/13/11
Steven E. Koonin, Science Central Technical Authority (S-4)
